The Problem

Vehicles are among the most valuable and in-demand assets, with the potential for generating significant income. However, managing and renting out cars can often be a challenging and time-consuming process.

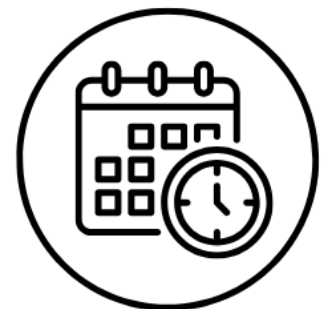

Maintenance

Handling repairs, maintenance, and wear

Insurance

Managing insurance, coverage, and liability.

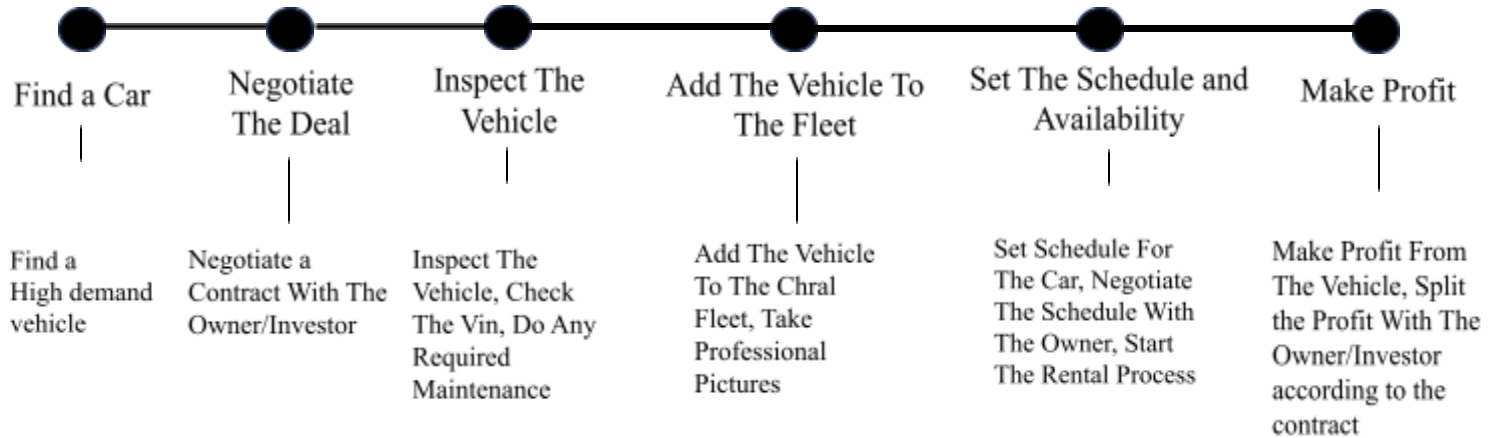

Scheduling

Managing bookings, inquiries, and availability.

We've created a solution that bridges the gap between owning vehicles and passively earning returns—without the headaches or obligations typically associated with fleet management.

Vehicle Rental Management Process

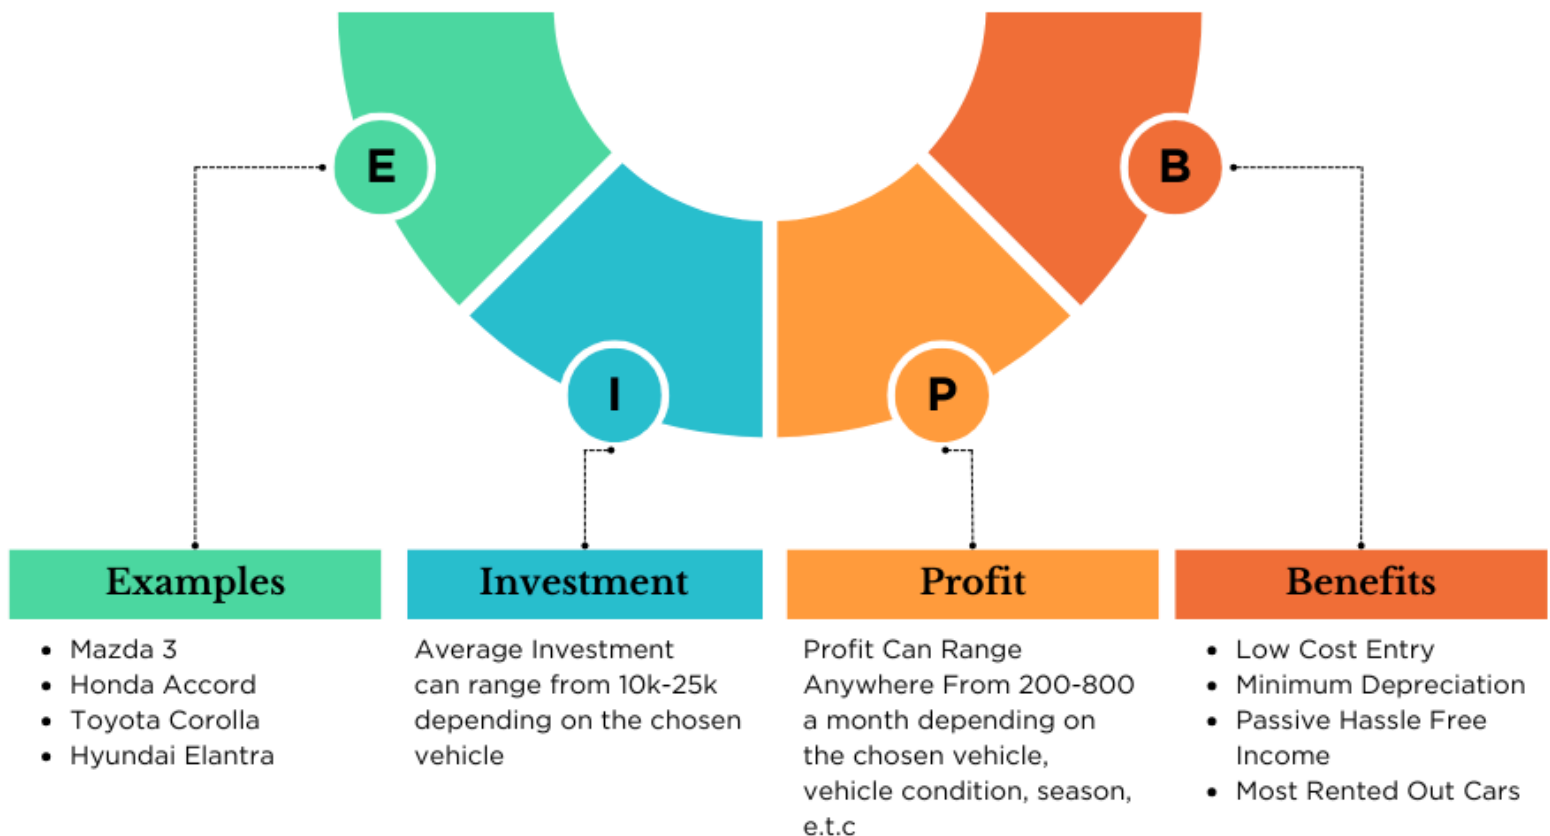

From acquiring a vehicle to managing rentals, car ownership and rental can be time-consuming and demanding. We offer our partners the opportunity to earn passive returns, backed by the value of a physical asset, without the hands-on management or large investment typically required for traditional vehicle ownership and rental operations. Our vehicle acquisition and enhancement strategies demonstrate extensive expertise in automotive investments. These range from minor cosmetic upgrades to complete overhauls, ensuring each vehicle is optimized for maximum rental income and long-term value.

Meet the Team

Alex Shestov, C.E.O.

Alex has extensive experience in business management, particularly in the automotive and construction industries. He started his career by running a car detailing business in Ohio, where he serviced five dealerships with a team of employees, gaining valuable insight into operations, customer service, and team management. Alex further expanded his expertise by managing a used car dealership in Ohio, overseeing day-to-day operations, sales, and logistics. In addition, he co-owned and operated a remodeling business, where he gained experience in project management, client relations, and managing construction teams. Alex also worked as a salesman for a top company, refining his sales skills and deepening his understanding of customer needs. After building a strong foundation across multiple industries, Alex moved to Las Vegas to start his vehicle rental management company. With a hands-on approach and a deep understanding of both the automotive market and business operations, Alex is now focused on growing his rental business and offering investors the opportunity to earn passive income without the complexities of daily management.

Christian Zeigler, C.F.O.

Christian brings a broad range of business management experience, with a focus on the automotive and construction industries. In Ohio, he managed both a car detailing business and a used car dealership, where he optimized operations, boosted team performance, and ensured top-notch customer service. His work in these sectors helped him develop a deep understanding of business processes and operational efficiency. Additionally, Christian co-owned and operated a remodeling business, overseeing large-scale projects, coordinating with clients, and managing construction teams to ensure high-quality results. This experience in the construction industry has further refined his project management and leadership skills. As a co-owner of the vehicle rental management company, Christian is dedicated to streamlining operations, creating scalable systems, and enhancing fleet performance. His focus is on providing investors with a seamless, passive income opportunity while minimizing the typical challenges of vehicle ownership and management. Christian's hands-on approach to business and his strategic thinking make him a key player in the growth and success of the company.

The Simplicity of Our Process

Initial Agreement: Our journey begins with a simple and transparent agreement. This document, signed between you and Chral Management Group, outlines the terms of your investment, ensuring clarity and mutual understanding from the start.

Enhanced Security for Larger Investments: For investments exceeding \$50,000, we offer additional security through a lien on the vehicles in the fleet. This ensures that your investment is not only profitable but also well-protected.

Efficient Capital Deployment: Once the agreement is in place, our trusted funding partners issue a check for the agreed amount. The advantage of our system is that your potential earnings begin to accumulate with the first rental, creating immediate value from the start.

Completion and Returns: Upon the successful management of the vehicle rental operations, you will receive your principal investment, along with any accrued interest and applicable returns.

Why Choose Us?

Hassle-Free Experience: We manage all aspects of the process—from acquiring vehicles to managing logistics, bookings, and ongoing maintenance. Your only role is to invest and enjoy passive income from your investment.

Passive Income: Our model is designed to generate strong, reliable passive income from your investment, often surpassing traditional investment options such as CDs, savings accounts, and even stock market returns.(Depending on the Investment)

Trust and Transparency: At Chral Management Group, we prioritize clear communication, integrity, and a commitment to delivering the best experience for our investors. Our focus on transparency and dedicated service ensures that your investment is managed with the utmost care and attention to detail.
